

MARINE DIESEL ENGINE

4 cylinders

50 Hp.

Solé Diesel

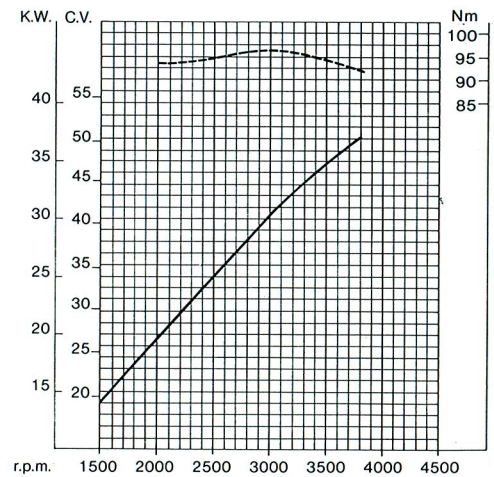

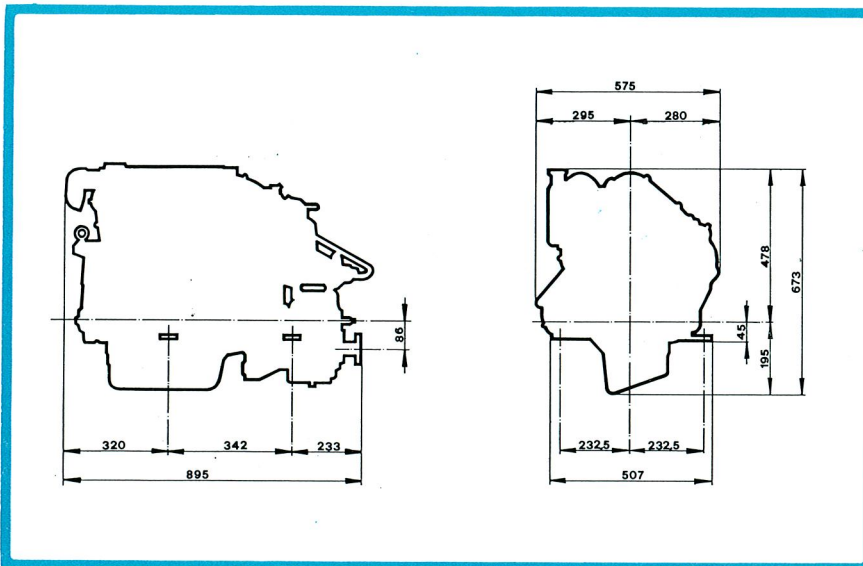

MINI-50 ENGINE

SPECIFICATIONS:

N.º of cylinders:	4 in line
Bore x stroke:	83 mm. x 79,2 mm.
Total capacity:	1.714 cc.
Compression ratio:	20:1
Power DIN 6270-B:	50 Hp. (36,8 KW.) at 3.800 r.p.m.
Injection system:	Indirect
Cooling system:	Fresh water cooling, with heat exchanger, oil cooler and cooled exhaust manifold.
Electrical equipment:	12 V. Alternator 55 A.
Gear box:	Mechanical SMP-H type. Ratios 1,5:1 - 2:1 - 2,5:1 and 3:1
Weight with gear box:	215 Kgs.
Installation angle:	17°

Standard Equipment: Electrical starter and alternator, control panel with tachometer, water temperature gauge and audible alarms, fuel pump, oil filter, connections for control cables.

Optional Equipment: Fuel filter with water separator, water filter, waterstrainer, remote controls, propeller shaft, stern tube and propeller.
